

Carlos Lagoa

Experience in competitive motorsport engineering and aeronautics, recently graduated from Loughborough University.

Bilingual in English & Spanish

Education

2017-2020 **COMPUTER SCIENCE AND BUSINESS MANAGEMENT, BSc**
Grade 2.1
Object Oriented Programming, Web Development, Mobile Application Development, Software Engineering, Marketing, Quantitative Business Methods, Accounting & more
Loughborough University

Achievements

University **GOLD VOLUNTEER AWARD**
For having completed 240h+ of volunteering in activities representing the Students Union.
Loughborough Students Union

TEAM PROJECTS AWARD
Our team won a university competition sponsored by Accenture, where I was the Team Leader.
Accenture

Sixth Form **PRINCIPAL'S AWARD**
Working with the Admissions and Marketing team in order to develop a more immersive open day experience.
Wymondham College, Norfolk

COMPUTER SCIENCE SUBJECT LEADER
Creating a welcoming environment for younger students who were interested or struggling with the subject and representing the subject externally.
Wymondham College, Norfolk

Sports **SWIMMING SCHOLARSHIP**
During my time in Spain, before going to the UK for sixth form I was awarded a competitive swimming scholarship.
Swimming Club La Salle, Mallorca

Extracurriculars

Motorsport **HEAD OF DATA, LUMOTORSPORT**
Working in the challenging Formula Student International competition to provide Loughborough's team with the best in cost-effective in-house telemetry systems.

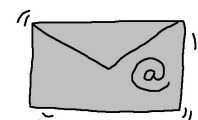

This taught me the importance of on-the-job hands-on experience that university can rarely provide - and I got to do it in a friendly yet challenging environment.

I have learned extensively about time-management and team-work too, by also working with the Team Leader in Sponsorships/Partnerships acquisitions and relations
Loughborough University Motorsport

Volunteering **TRAINING OFFICER, LOUGHBOROUGH NIGHTLINE**
After volunteering as a listener for a year I was chosen to train the new volunteers that each year apply to be part of Nightline, a student to student listening service.

Being part of this great community has taught me the importance of being open and honest with yourself and others regarding your mental state - and that "it's okay to not be okay"
Loughborough Students Union

Coding **EVENT ORGANIZER, HACKLBORO**
Creating Loughborough's first Hackathon is no easy feat. Working with sponsors, organizing the budget, choosing a venue, selecting the catering team and more. Unfortunately we had to cancel the hackathon due to the Coronavirus outbreak.
