PAST ACHIEVEMENTS

- University** **GOLD VOLUNTEER AWARD**
For having completed 130h+ of volunteering in activities representing the Students Union. Primarily this was volunteering for Nightline - a student to student listening service.
Loughborough Students Union
- Sixth Form** **PRINCIPAL'S AWARD**
Working with the Admissions and Marketing team in order to develop a more immersive open day experience.
Wymondham College
- COMPUTER SCIENCE SUBJECT LEADER**
Creating a welcoming environment for younger students who were interested or struggling with the subject and representing the subject externally.
Wymondham College

EXTRACURRICULARS

- Currently** **HEAD OF TELEMETRY**
Working in the challenging Formula Student International competition to provide Loughborough's team with the best in cost-effective in-house telemetry systems, as well as working with the electronics department to provide the front end for the car's sensors.

This has taught me the importance of a hands-on experience that sometimes university can't provide.

I have learned extensively about time-management and team-work.
Loughborough University Motorsport
- TRAINING OFFICER, LOUGHBOROUGH NIGHTLINE**
After volunteering as a listener for a year I have been chosen to train the new volunteers that each year apply to be part of Nightline, a student to student listening service.

Being part of this great community has taught me the importance of being open and honest with each other and to listen and understand someone's situation.
Loughborough Students Union
- EVENT ORGANIZER, HACKLBORO**
Creating Loughborough's first Hackathon is no easy feat. Working with sponsors, organizing the budget, choosing a venue, selecting the catering team and more. Unfortunately we had to cancel the hackathon due to the Coronavirus outbreak.
